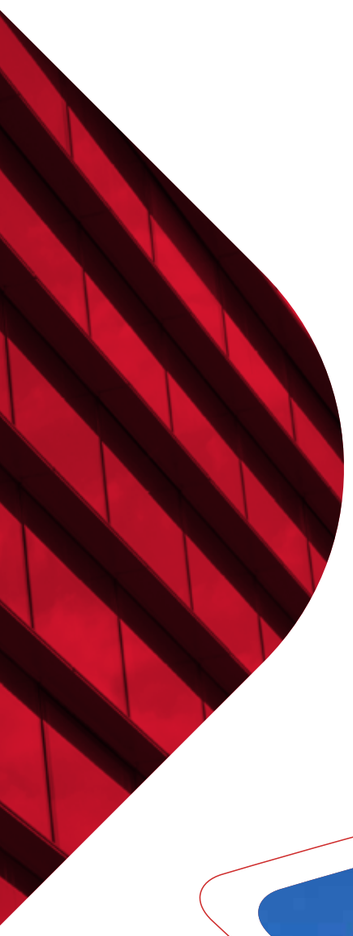
RELIABLE TOP QUALITY FOR PROFESSIONALS

We've got it sealed

Connect Products specialises in the development and production of a specialised and wide range of sealants and adhesives based on acrylic, silicone and MS/Hybrid technology, as well as PU foams and accessories. Our products guarantee consistent top quality and provide durable and efficient solutions for professional applications in the construction, marine, automotive and industrial sectors. Whether new construction, renovation or maintenance, our products ensure the best end result.

Our organisation sets itself apart by a dedicated and experienced team typified by high commitment, in-depth knowledge and excellent service. We are ready to answer all your questions and requests.

This product catalogue provides an overview of our current product range.



APPLICATIONS

Superior sealants, adhesives, PU foams and accessories for professionals. Seal-it® products are certified, versatile, available in a variety of colours, environmentally and user-friendly, durable, efficient and well-positioned on the market, and meet all applicable standards and regulations. Seal-it® high-performance products guarantee quality and results, for secure and durable bonds, in construction, façades, glazing, sanitary and industrial applications.

HELPFUL TIPS

Sealant consumption guideline

Recommended joint size		Number of linear metres		Sealant consumption per 100 linear metres	
width mm	depth mm	per cartridge	per foil pack	number of cartridges	number of foil packs
5	8	7.80	15.09	13	7
7	8	4.80	9.29	21	11
9	9	3.10	6.00	32	17
11	10	2.60	5.03	39	20
13	10	2.10	4.06	48	25
15	11	1.70	3.29	59	30
17	12	1.60	3.09	63	33
19	12	1.50	2.90	67	35
21	13	1.00	1.94	100	52
23	14	0.90	1.74	111	57
25	14	0.80	1.55	125	65

The sealant consumption quoted above is based on net consumption. In practice, there will be a material loss, which can vary between 0% and 30%, depending on the type of joint, joint size and the method of the respective sealant applicator.

Joint dimensions

The joint depth always depends on the joint width, which can be easily and quickly calculated according to the formula below.

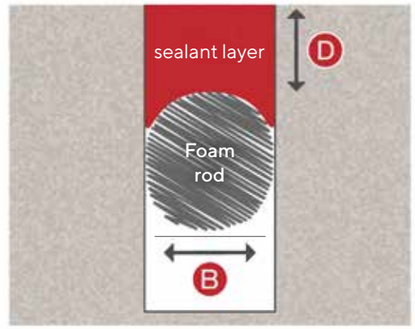
Joint depth = (Joint width: 3) + 6 mm

Example
With a joint width of 18 mm the correct joint depth is:

(18 mm: 3) + 6 mm = 12 mm

Apply Seal-it® sealants at the correct joint depth using the Seal-it® 540 foam rod, see detailed drawing.

Foam rods prevent the sealant from being applied directly to the joint underside, creating a three-point bond where the sealant joint cannot deform optimally.



B= Joint width **D**= Joint depth

Documentation

Visit our website **www.sealit.nl** for comprehensive documentation of all products such as product and safety sheets, certificates, performance declarations, application charts and useful tips and tricks.

Connect Products is known for its superior sealants, adhesive products, PU foams and accessories for professionals. Our products are certified, environmentally and user-friendly, durable and available in many colours. A guarantee for secure and durable connections.

SEAL-IT®
ACRYLIC

Seal-it®
ACRYLIC

Seal-it® **110 UNI-ACRYL**

SEAL-IT® 110 UNI-ACRYL is a high-quality, universally paintable acrylic dispersion-based sealant, filler and repair sealant. Specifically developed for paintable seals.

Certified

Colour	12 x 310ml cartridge
White	SI-110-9100-310

Pallet unit:
Cartridge - 1,248 pieces

Seal-it® **125 PLASTER-FILL**

SEAL-IT® 125 PLASTER-FILL is a high-performance, ultra-lightweight, ready-to-use repair agent and filler on an acrylic dispersion basis. Specifically developed for indoor repair work.

Certified

Colour	12 x 310ml cartridge	1L bucket	5L bucket
White	SI-125-9100-310	SI-125-9100-001	SI-125-9100-005

Pallet unit:
Cartridge - 1,248 pieces 1 Litre - 260 pieces 5 Litre - 54 pieces

Seal-it® **115 TOP-ACRYL**

SEAL-IT® 115 TOP-ACRYL is a high-quality, rapidly rainproof, universally paintable acrylic dispersion-based sealant, filler and repair sealant. Specifically developed for outdoor use, but also suitable for indoor applications.

Certified

Colour	12 x 310ml cartridge
White	SI-115-9100-310

Pallet unit:
Cartridge - 1,248 pieces

Seal-it® **130 CEMENT-FIX**

SEAL-IT® 130 CEMENT-FIX is a high-quality joint repair agent based on acrylic dispersion. Specially developed for repairing damaged joints and the improvement of masonry, both indoors and outdoors.

Certified

Colour	12 x 310ml cartridge
Grey	SI-130-7100-310

Pallet unit:
Cartridge - 1,248 pieces

Seal-it® **120 SPAC-ACRYL**

SEAL-IT® 120 SPAC-ACRYL is a high-quality, granular, acrylic dispersion-based sealant, filler and repair sealant. Specifically developed for textured surfaces.

Certified

Colour	12 x 310ml cartridge
White	SI-120-9100-310

Pallet unit:
Cartridge - 1,248 pieces

Seal-it® **140 ACRYL-FR**

SEAL-IT® 140 ACRYL-FR is a high-quality, fire-resistant joint sealant based on acrylic dispersion. Specifically developed to seal linear connection joints, cable ducts and grommets, both indoors and outdoors.

Certified

Colour	12 x 310ml cartridge
White	SI-140-9100-310

Pallet unit:
Cartridge - 1,248 pieces

SEAL-IT®

SILICONE

Seal-it®
SILICONE

Seal-it® **210 SILICON-GP**

Seal-it® 210 SILICON-GP is a high-quality, professional acetoxy silicone sealant with anti-fungal properties. Suitable for construction, glazing and sanitary joints and also ideal for bonding emergency glass in case of glass damage.

Certified CE

Colour	12 x 310ml cartridge

Connect Products your reliable private label partner.

Connect Products has extensive experience in developing and supplying private label sealants, adhesives, PU foams and other products in various packaging units, such as cartridges, tubes, foil packs or cans. We can move quickly because we can do everything from A to Z in-house. From a design department with passionate designers to in-house production facilities and an R&D laboratory, we are at your disposal. If you are interested, you can make a no-obligation appointment with our Key Account Manager Private Label, who will be happy to help you with all your requests and questions.

Quality and innovation are paramount.

Technology, practical knowledge and customer requirements form the basis for our product development, resulting in a specialised and broad range.

Seal-it® products guarantee high-quality, durable and efficient solutions, for applications during new construction, renovation and maintenance projects. In addition, our products are permanently subjected to very thorough research and effective development, according to the latest technology and insights.
